

LOOK WHAT YOUR HOME'S SMART METER CAN DO FOR YOU

ComEd has verified the following Smart Meter Connected Devices (SMCD) to be compatible with ComEd smart meters. These smart devices can receive electricity usage and estimated electricity cost information from ComEd meters. If your device is not listed below, it may still be compatible with a ComEd smart meter; however, it may not yet have been verified by ComEd for compatibility.

SMART METER CONNECTED DEVICES LIST

VENDOR	DEVICE NAME	MODEL/PART NUMBER	WEBSITE
Rainforest Automation	EMU-2	RFA-ZI05-2	rainforestautomation.com
Rainforest Automation	EAGLE Gateway	RFA-ZI09	rainforestautomation.com
Ambient	Energy Joule	Energy Joule	ambientdevices.com
Aztech Associates Inc.	Aztech In-Home Display	S000-0908 C	myaztech.ca
Energate Inc.	HöIHöm Smart Thermostat and Home Energy Gateway	119139025I	holhom.com

If you are considering a smart device that is not on the ComEd SMCD list and would like to know if ComEd has additional information on that particular smart device, please email SMCDHelpDesk@ComEd.com with the following information:

- A statement mentioning you are considering the purchase of a smart device and would like to determine if it is compatible with ComEd smart meters
- The model and manufacturer of the smart device you are considering

A response to your request will be provided within one business day.

NOTE:

The SMCDHelpDesk@ComEd.com email address should only be used to contact the Smart Meter Connected Devices team to:

- Connect a smart device to a ComEd smart meter, or troubleshoot any issues involved with connection
- Submit questions about the Smart Meter Connected Devices service

For all other questions regarding ComEd's smart meters, please call: 1-866-368-8326.

ComEd does not endorse any manufacturer or retailer of smart devices included on the ComEd Smart Meter Connected Devices List, nor the manufacturer's or retailer's business practices. The ComEd verification process focuses on whether the smart device is compatible with ComEd smart meters, receives information from ComEd smart meters, and functions properly. ComEd makes no warranties, guarantees or promises of performance and none are implied.
