

Current tariff sections also are important for vegetation management activities at ComEd

ACCESS TO PREMISES (Page 152 of Tariff document)

The retail customer or applicant must provide properly authorized agents of the Company and Company trucks and equipment, as applicable, free access to the premises at all reasonable hours, and at any time in an emergency, for the purposes of (a) furnishing, installing, operating, replacing, maintaining, and removing the Company's distribution or meter-related facilities; (b) testing, inspecting, examining and reading electric meters and meter-related facilities; (c) connecting other retail customers to the Company's distribution system, or (d) performing vegetation management.

In accordance with the provisions of the National Electrical Safety Code, the Company has the right to trim, remove, or separate trees, vegetation, or any structures therein, which in the judgment of the Company, interfere with the electric delivery system located in the Company's service territory in a manner that may pose a threat to public safety or system reliability.

Following the installation, alteration, or acquisition of Company facilities at a premises, the retail customer or applicant must provide the Company ready and continued access to such facilities without impediments from overbuilding, change in established grade or other obstructions to the operation, testing, inspection, maintenance and replacement of such facilities. It is the retail customer's or applicant's responsibility to obtain information from the Company regarding permitted clearances around distribution and related facilities. For a situation in which the Company schedules work outside the distribution system easement at a retail customer's premises, the Company contacts such retail customer prior to the start of such work. For a situation in which there is an emergency with respect to safety or restoration of electric service, the Company attempts such contact prior to the start of such work, but proceeds with the work if such contact cannot be made in a timely fashion.

Page 155 from Tariff document

All distribution facilities provided by the Company for the purpose of providing electric service to a retail customer, unless otherwise expressly provided, are the property of the Company, and such retail customer must exercise reasonable care to protect such property from loss or damage.

For a situation in which the Company's property is damaged, the entity responsible for such damage is assessed for the fully allocated cost to repair or replace such property.

OTHER BILLING PROVISIONS (Page 201 of Tariff document)

Facilities Related Billing Provisions

For a situation in which a retail customer does not provide the Company continued access to Company facilities located on such retail customer's premises in accordance with the provisions in the Access to Premises section of the Service Application, Commencement, and Continuation part of these General Terms and Conditions, and the Company incurs additional costs in operating, maintaining, or replacing such facilities due to such inability to gain access, the Company charges such retail customer for such additional costs incurred.
