

Small Business Offering 30% For All Promotion

For a limited time, all small businesses and public facilities that qualify for the Small Business offering will receive a **30% higher project incentive!**

The Basics

There's never been a better time for your small business or public facility to participate in the ComEd Energy Efficiency Program. From August 15, 2022, through October 28, 2022, you will receive a 30% additional project incentive when you apply for a new project. That means that you'll pay even less for energy efficiency upgrades that will instantly start saving you money and energy.

Taking advantage of this unbeatable offer couldn't be easier. Simply connect with an authorized Energy Efficiency Service Provider to find out which upgrades make sense for your business. They'll take care of everything from performing the initial energy assessment of your facility, to installing the upgrades that you select.

Benefits

- Get 30% more incentive dollars to help cover the cost of your project. You only pay the remainder after incentives are applied.
- Stack this 30% promotion with the increased incentives that are part of the Comprehensive Campaign (ask your Service Provider to learn more).
- Reduce your overhead and improve the atmosphere inside your facility.
- Long-term money and energy savings for a quick return on investment.
