

PRODUCT INSTALLATION INSTRUCTIONS

Smart Socket

To complete installation you will need:

- Smart socket (located in your kit)
- Smart phone

Instructions

1. Download the Simply Conserve app from the Apple App Store or the Google Play store.
2. Follow instructions to register a new account.
3. Choose the location in your business for your socket and proceed to install and turn the power on.
4. Tap "Add Device" in the Simply Conserve app.
5. Power on the device and check to see that the LED indicator light turns on. When the indicator light is on, power the device on and off by holding down the power button until the LED indicator begins blinking rapidly (2 times per second).
6. Once the LED indicator on the smart socket is blinking rapidly (2 times per second), return to the app and tap "Confirm light blinks rapidly" on the app screen.
7. Enter your Wi-Fi network and password to connect your socket.
8. Smart socket will begin to pair with the Simply Conserve app.
9. After successful pairing, rename your smart socket.
10. Control your smart socket with the Simply Conserve app.
