

CUSTOM INCENTIVES WORKSHEET

January 1, 2019 through December 31, 2019

Directions: Please save a copy of this form to your computer by selecting “File/Save As” before entering text and numbers. Then fill in your information electronically and select “Save.” Note that this form requires Adobe Reader® version 11.0 to function properly. Download the most recent version of Adobe Acrobat Reader DC® at <http://get.adobe.com/reader>.

A pre-approval application is required; review instructions on the standard and custom incentives pre-approval and final application form. Wait for pre-approval before starting your project.

Use This Worksheet to Apply for Custom Incentives

Your incentive is based on actual kWh saved, as verified by the ComEd® Energy Efficiency Program team after the final application is submitted.

(Please note: Use the water treatment plant incentive worksheet to apply for water treatment plant projects and use the combined heat and power incentive worksheet for combined heat and power projects. Custom lighting projects should be submitted using the [All Other Lighting Document] Incentives Worksheet.)

1. Submit Pre-Approval Application with Requested Documentation

- Download the **Calculating & Documenting Energy Savings** guide for information on calculating and measuring the energy savings associated with your project.
- If you need assistance calculating the energy savings or completing this worksheet, email BusinessEE@ComEd.com or call 855-433-2700.

2. Receive Approval and Reservation Letter

3. Purchase and Install New Equipment

4. Submit Final Application and Supporting Documentation for Incentive

Project Description

The project will be (please select all that apply): New equipment Replacement of existing equipment

Is the existing equipment operational?: Yes No

Was this project identified in a ComEd Energy Efficiency Program facility assessment or study?: Yes No

Study completion date:

Please check all systems that apply to the project:

- | | | |
|---|--|--|
| <input type="checkbox"/> Compressed air/vacuum | <input type="checkbox"/> HVAC | <input type="checkbox"/> Commercial refrigeration |
| <input type="checkbox"/> Industrial refrigeration | <input type="checkbox"/> Process heating | <input type="checkbox"/> Process efficiency |
| <input type="checkbox"/> Process cooling | <input type="checkbox"/> Geothermal | <input type="checkbox"/> Other: <input type="text"/> |

Facility Name:

CUSTOM INCENTIVES WORKSHEET

January 1, 2019 through December 31, 2019

Project Scope:

If there is any change in the project scope or timeline, contact the ComEd Energy Efficiency Program team immediately. You will be asked to describe the scope change in writing. The program team may issue you a revised reservation letter.

Baseline or Existing System Summary

Please provide an overview of the current condition of the affected equipment.

Is the equipment in question past its useful life? Yes No

If yes, please provide an estimate of the material and labor cost for typical and standard practice replacement equipment.

Proposed New System

Provide a detailed description of the proposed system. Include the following information: proposed system description, existing equipment affected, operating efficiencies for new equipment, material costs, labor costs and expected useful life. Attach additional sheets as required. A meeting may be requested between the customer, the contractor and the ComEd Energy Efficiency Program team to better understand the project scope.

CUSTOM INCENTIVES WORKSHEET

January 1, 2019 through December 31, 2019

Calculation Methodology

Describe the method used to calculate energy savings (including spreadsheets and applicable data sheets that support methodology.) Attach additional sheets as required.

Custom Incentive Calculation

Total project cost (internal labor costs are not to be included):

Energy conservation measure life (yrs):

Annual energy savings (in kWh):

Estimated annual energy savings (in dollars):

Simple payback period (Subject to review and approval):

Requested Incentive @ \$0.12 per kWh Reduced Annually:

Estimated demand reduction (kW):

Equipment annual operating hours:

Are there natural gas savings associated with this project? Yes No

Your gas company may offer an additional incentive for your project.

Visit NicorGasRebates.com, PeoplesGasDelivery.com or NorthShoreGasDelivery.com for more information.

For the custom incentives program, the total incentive paid cannot exceed 100 percent of the incremental measure cost or 100 percent of the total project cost.
