

FIX IT NOW + MONITORING WORKSHEET

June 1, 2022 – December 31, 2022

DIRECTIONS: Please save a copy of this form to your computer by selecting “FILE/SAVE AS” before entering text and numbers. Then fill in your information electronically and select “SAVE.” Note that this form requires Adobe Reader® version 11.0 or greater to function properly. Download the most recent version of Adobe Reader® at <http://get.adobe.com/reader>.

I. INSTALL MONITORING (FIN) EQUIPMENT AND CONTROLS

As part of the Fix It Now Application, also submit this worksheet with any installed monitoring equipment or added control capability. Note that if this incentive is claimed, the installed system must provide monthly reports that calculate kWh saved. Note that installed equipment must have the ability to measure and export 15 minute interval data and that this data must be submitted quarterly with the FIN + Monitoring Workbook. This data must be submitted with the original FIN Application in order to establish a baseline using the FIN + Monitoring Workbook. Please include all implementation invoices pertaining to the work performed.

MONITORING EQUIPMENT AND CONTROL SYSTEM INCENTIVE			
	QUANTITY INSTALLED	INCENTIVE*	IDENTIFICATION INCENTIVE
Compressor Monitoring Equipment		\$900/Comp	
Advanced Control System		\$20/HP	
TOTAL			

*Capped at 75% of implementation cost

2. CLAIM ONGOING QUARTERLY INCENTIVE

After the standard FIN Application is submitted with the established baseline, incentive will be paid at \$0.06/kWh on the annualized incremental kWh efficiency gain over the course of the quarter. At the end of the quarter, simply list the efficiency improvements made, enter the monitoring system data in the FIN + Monitoring Workbook, and provide the resulting annual kWh savings. Note that the program-provided FIN + Monitoring Workbook must also be included. Please include all implementation invoices pertaining to the work performed.

QUARTERLY OPERATIONAL IMPROVEMENT INCENTIVE				
QUARTER	DESCRIPTION OF OPERATIONAL IMPROVEMENTS	ANNUAL KWH SAVINGS	INCENTIVE	TOTAL POTENTIAL INCENTIVE
1			\$0.06/kWh	
2			\$0.06/kWh	
3			\$0.06/kWh	
4			\$0.06/kWh	
TOTAL				

3. REPEAT FOR ADDITIONAL SAVINGS

Continue to add operational improvements and claim the quarterly incentive. After one year, the customer is eligible for another FIN study at which point the process would start over should they choose to participate.
